

PROFESSIONAL EXPERIENCE

C2FO

Senior Software Engineer II

10/2019 – 07/2024 | Leawood, KS

Senior engineer on the CashFlow+™ Card team helping build out a credit card to make invoice acceleration easier for suppliers utilizing AWS services for the event architecture and NestJS and NextJS for the customer portal.

Also helped build out a marketing automation tool using Django which collected data from across the company

Dunami

Senior Frontend Developer

02/2019 – 10/2019 | Overland Park, KS

I did frontend work on a React application as well as backend work with Node microservices using MySQL and Elasticsearch for a product that indexed social media data.

Intouch Solutions

Senior Frontend Developer

11/2018 – 02/2019 | Overland Park, KS

As a senior developer, I was responsible for general frontend development and architecture across multiple projects in .NET as well as overseeing and mentoring a group of junior developers.

VML

Technology Specialist

02/2016 – 11/2018 | Kansas City, MO

Frontend development in AEM and Angular for marketing sites
